Community Research Partners with SciComPro for Clinical Research
--Weingand to Serve as Principal Investigator--

Cincinnati, Ohio--Kurt Weingand, Ph.D., D.V.M., President of SciComPro-LLC®, has finalized an agreement with Community Research, a dedicated clinical research site in Cincinnati, to serve as Principal Investigator in clinical research studies. Dr. Weingand will lead the conduct of clinical trials conducted for development of new medical device products.

“I am excited to initiate this new product development work with an exciting new medical device at Community Research”, said Dr. Weingand. He added, “Community Research is an ideal partner for this upstream exploratory clinical research”.

“We are delighted to have Dr. Weingand working with our Community Research team”, said David Mayleben, Ph.D., President of Community Research.

Dr. Weingand had a 20 year career working in Research & Development and External Relations in the Global Health & Well-Being business unit at The Procter & Gamble Company, Cincinnati, OH. Prior to working at P&G, Weingand was a faculty member at the Wake Forest University School of Medicine.

About SciComPro-LLC

SciComPro is a privately held limited liability corporation in Mason, Ohio, USA that does clinical research, clinical investigator training, and provides a variety of external relations services for optimizing technical and commercial innovation in new product development and commercial initiatives in the healthcare category. For more information on SciComPro-LLC, see www.scicompro.com.

About Community Research

Community Research is a dedicated clinical research site that offers a full spectrum of Phase 1 clinical trial services: BA/BE, PK/PD, SAD, MAD, and First-in-Man. They also offer some unique capabilities including sleep laboratory and human performance studies and dental/oral care studies using a full suite of dental equipment. In addition to Phase 1 clinical trial work, Community Research conducts Phase 2, 3, and 4 clinical studies across a wide range of therapeutic indications at three other locations in the Greater Cincinnati area.

Community Research was recognized as a 2010 Blue Ribbon Business by the US Chamber of Commerce and one of the 60 TOP WORK PLACES 2010 in Cincinnati by Cincinnati Enquirer Media.
